

Linked list intersect

List A = 4 1 8 4 5

List B = 5 6 1 8 4 5

PA at 4 (List A start)

PB at 5 (List B start)

moving forward

PA = 4 1 8 4 5 null jumping to List B (head 5)

PB = 5 6 1 8 4 5 null jumping to List A (head 4)

After switching

PA (List B) 5 6 1 8 4 5

PB (List A) 4 1 8 4 5

PA traveled \rightarrow List A + List B.

PB traveled \rightarrow List B + List A.

List A = a

List B = b

~~list~~ intersection = c

$P_A \text{ travels} = a + c + b + c$

$a + b + 2c$

$P_B \text{ travels} = b + c + a + c$

$a + b + 2c$

1 → 2 → 3 → 4 → 5 → 6

7 → 8 → 9 → 10

11 → 12
